

New Release

TreeTalk Node

Fast, private file transfer for real-world local networks

Modern LAN file transfer, even for old PCs.

File sharing that never leaves your office.

The Problem

Teams still struggle with internal file exchange.

- ▶ Cloud tools blocked or unreliable
- ▶ Internet required for simple transfers
- ▶ USB sticks + email chaos
- ▶ SMB shares confusing or restricted

Result: Slow workflows. Security risks. Frustrated users.

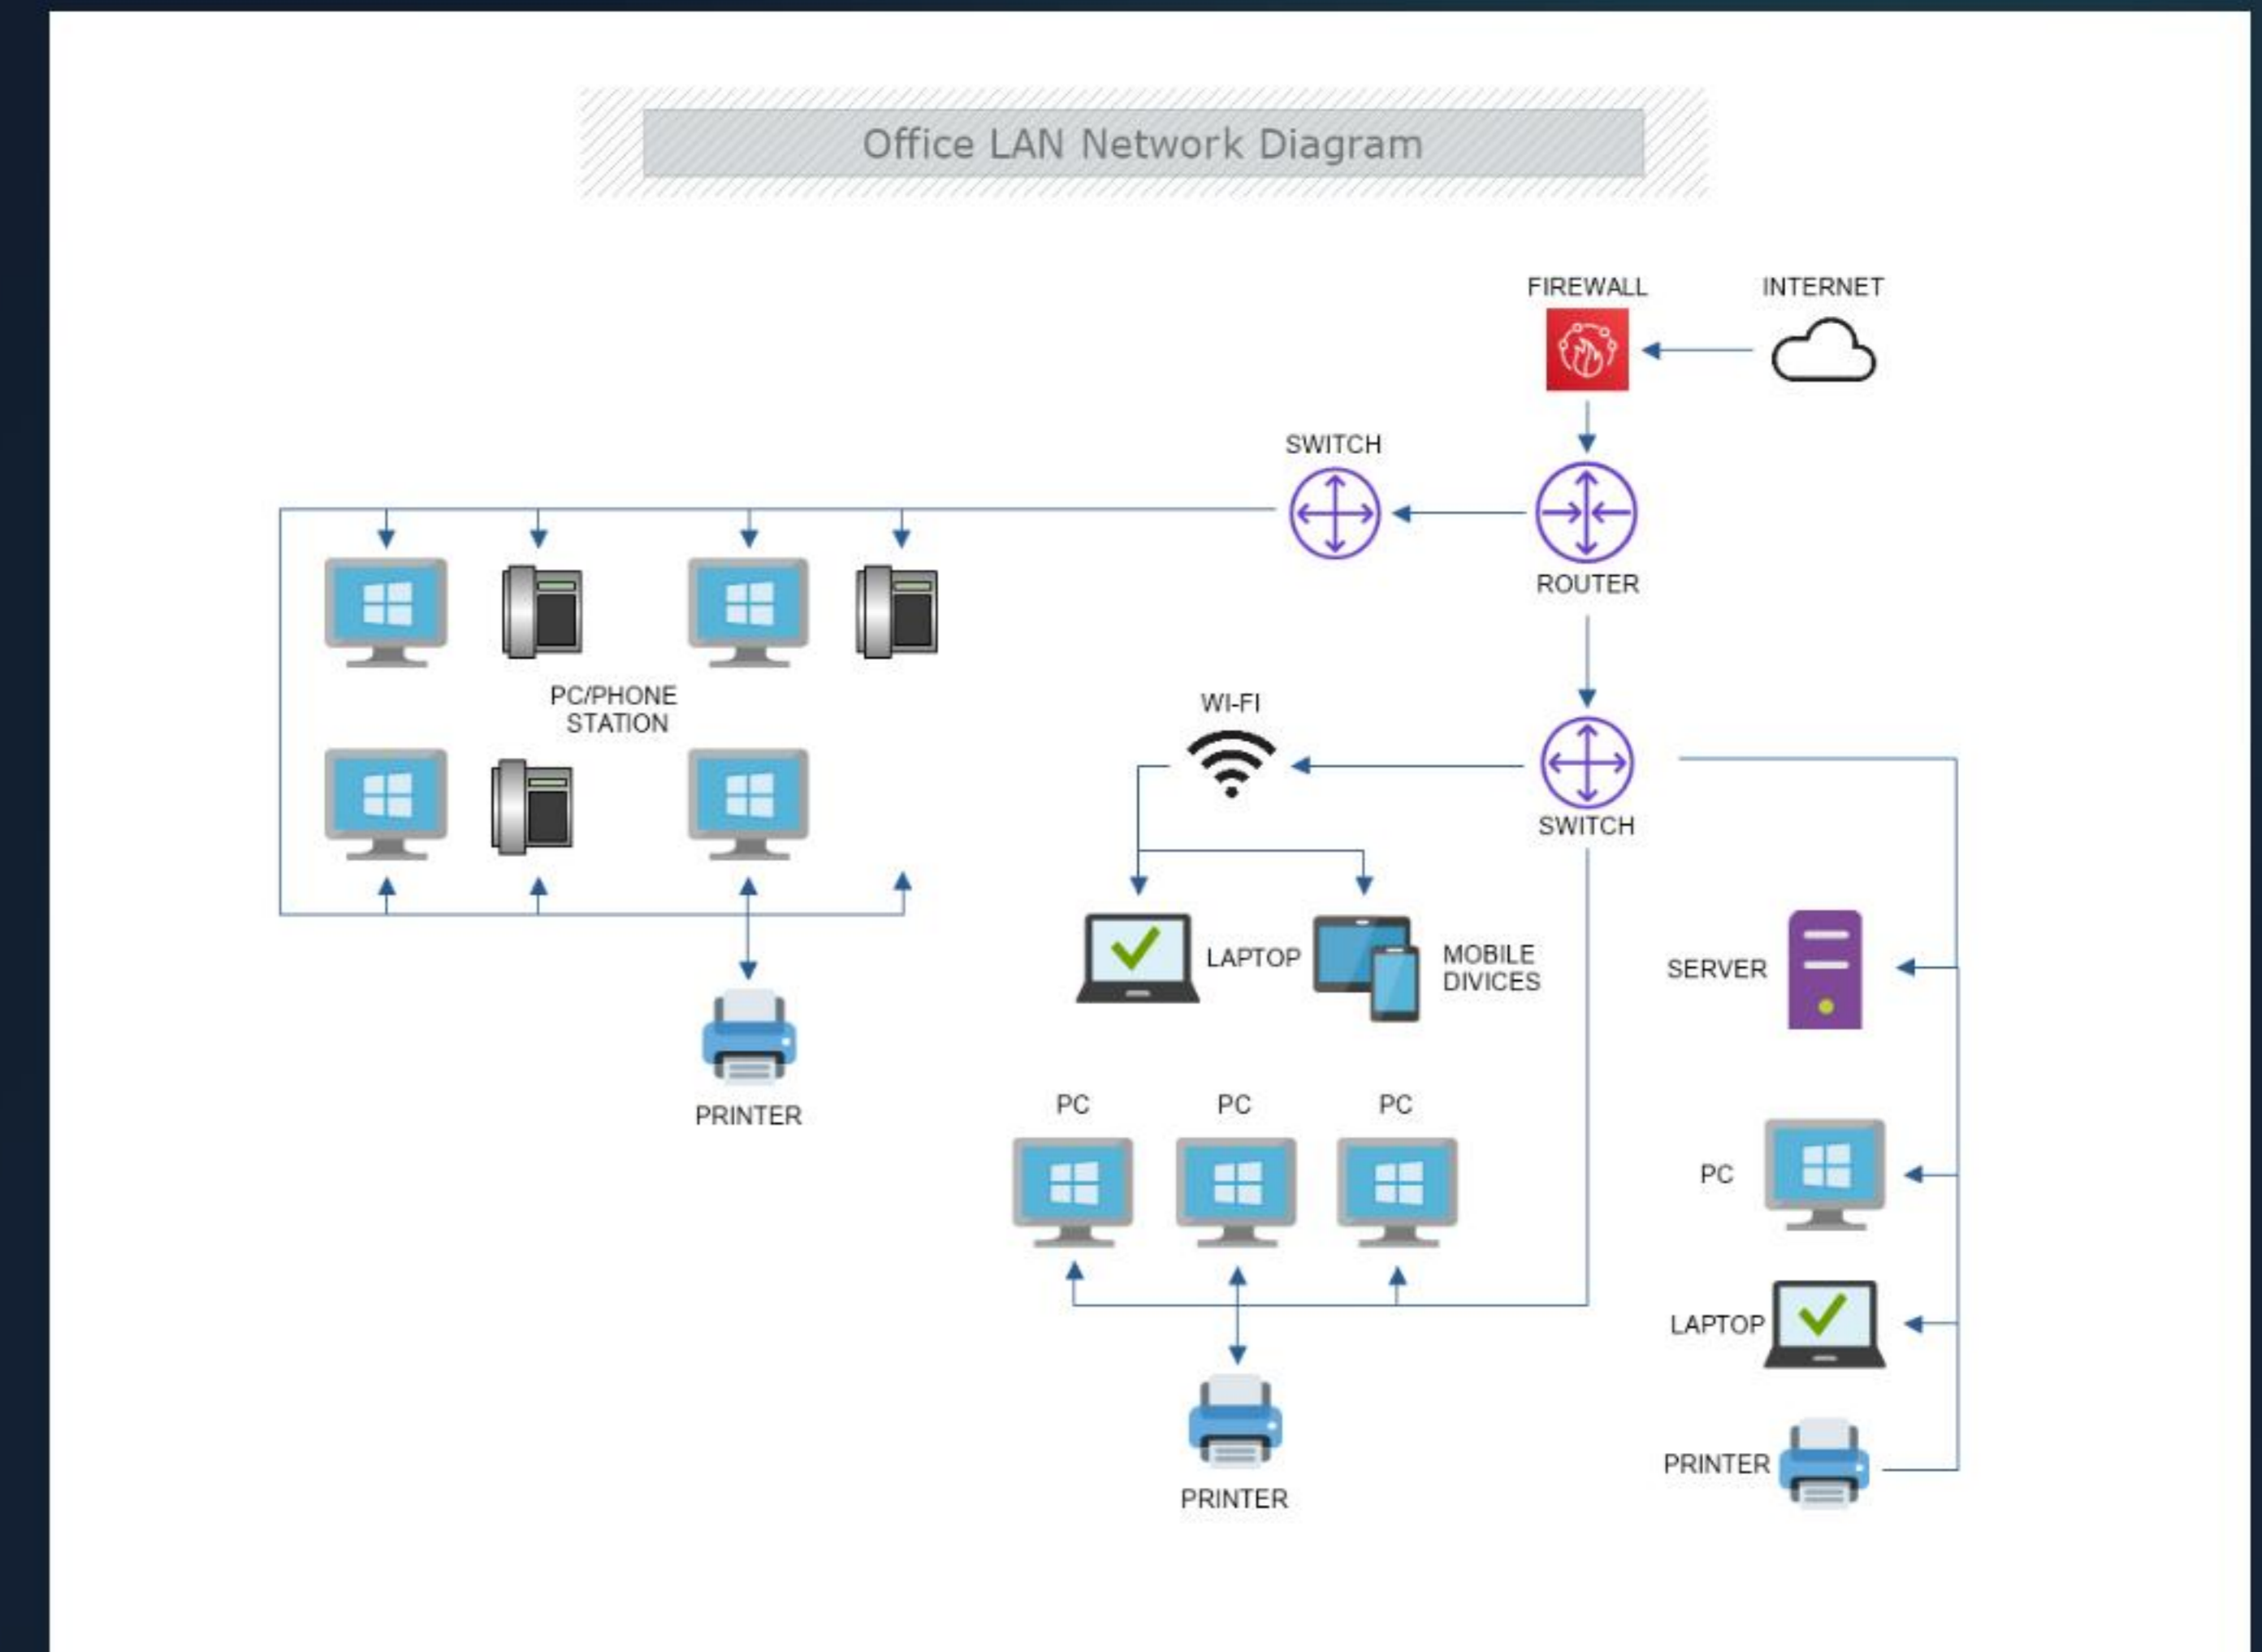

Market Reality

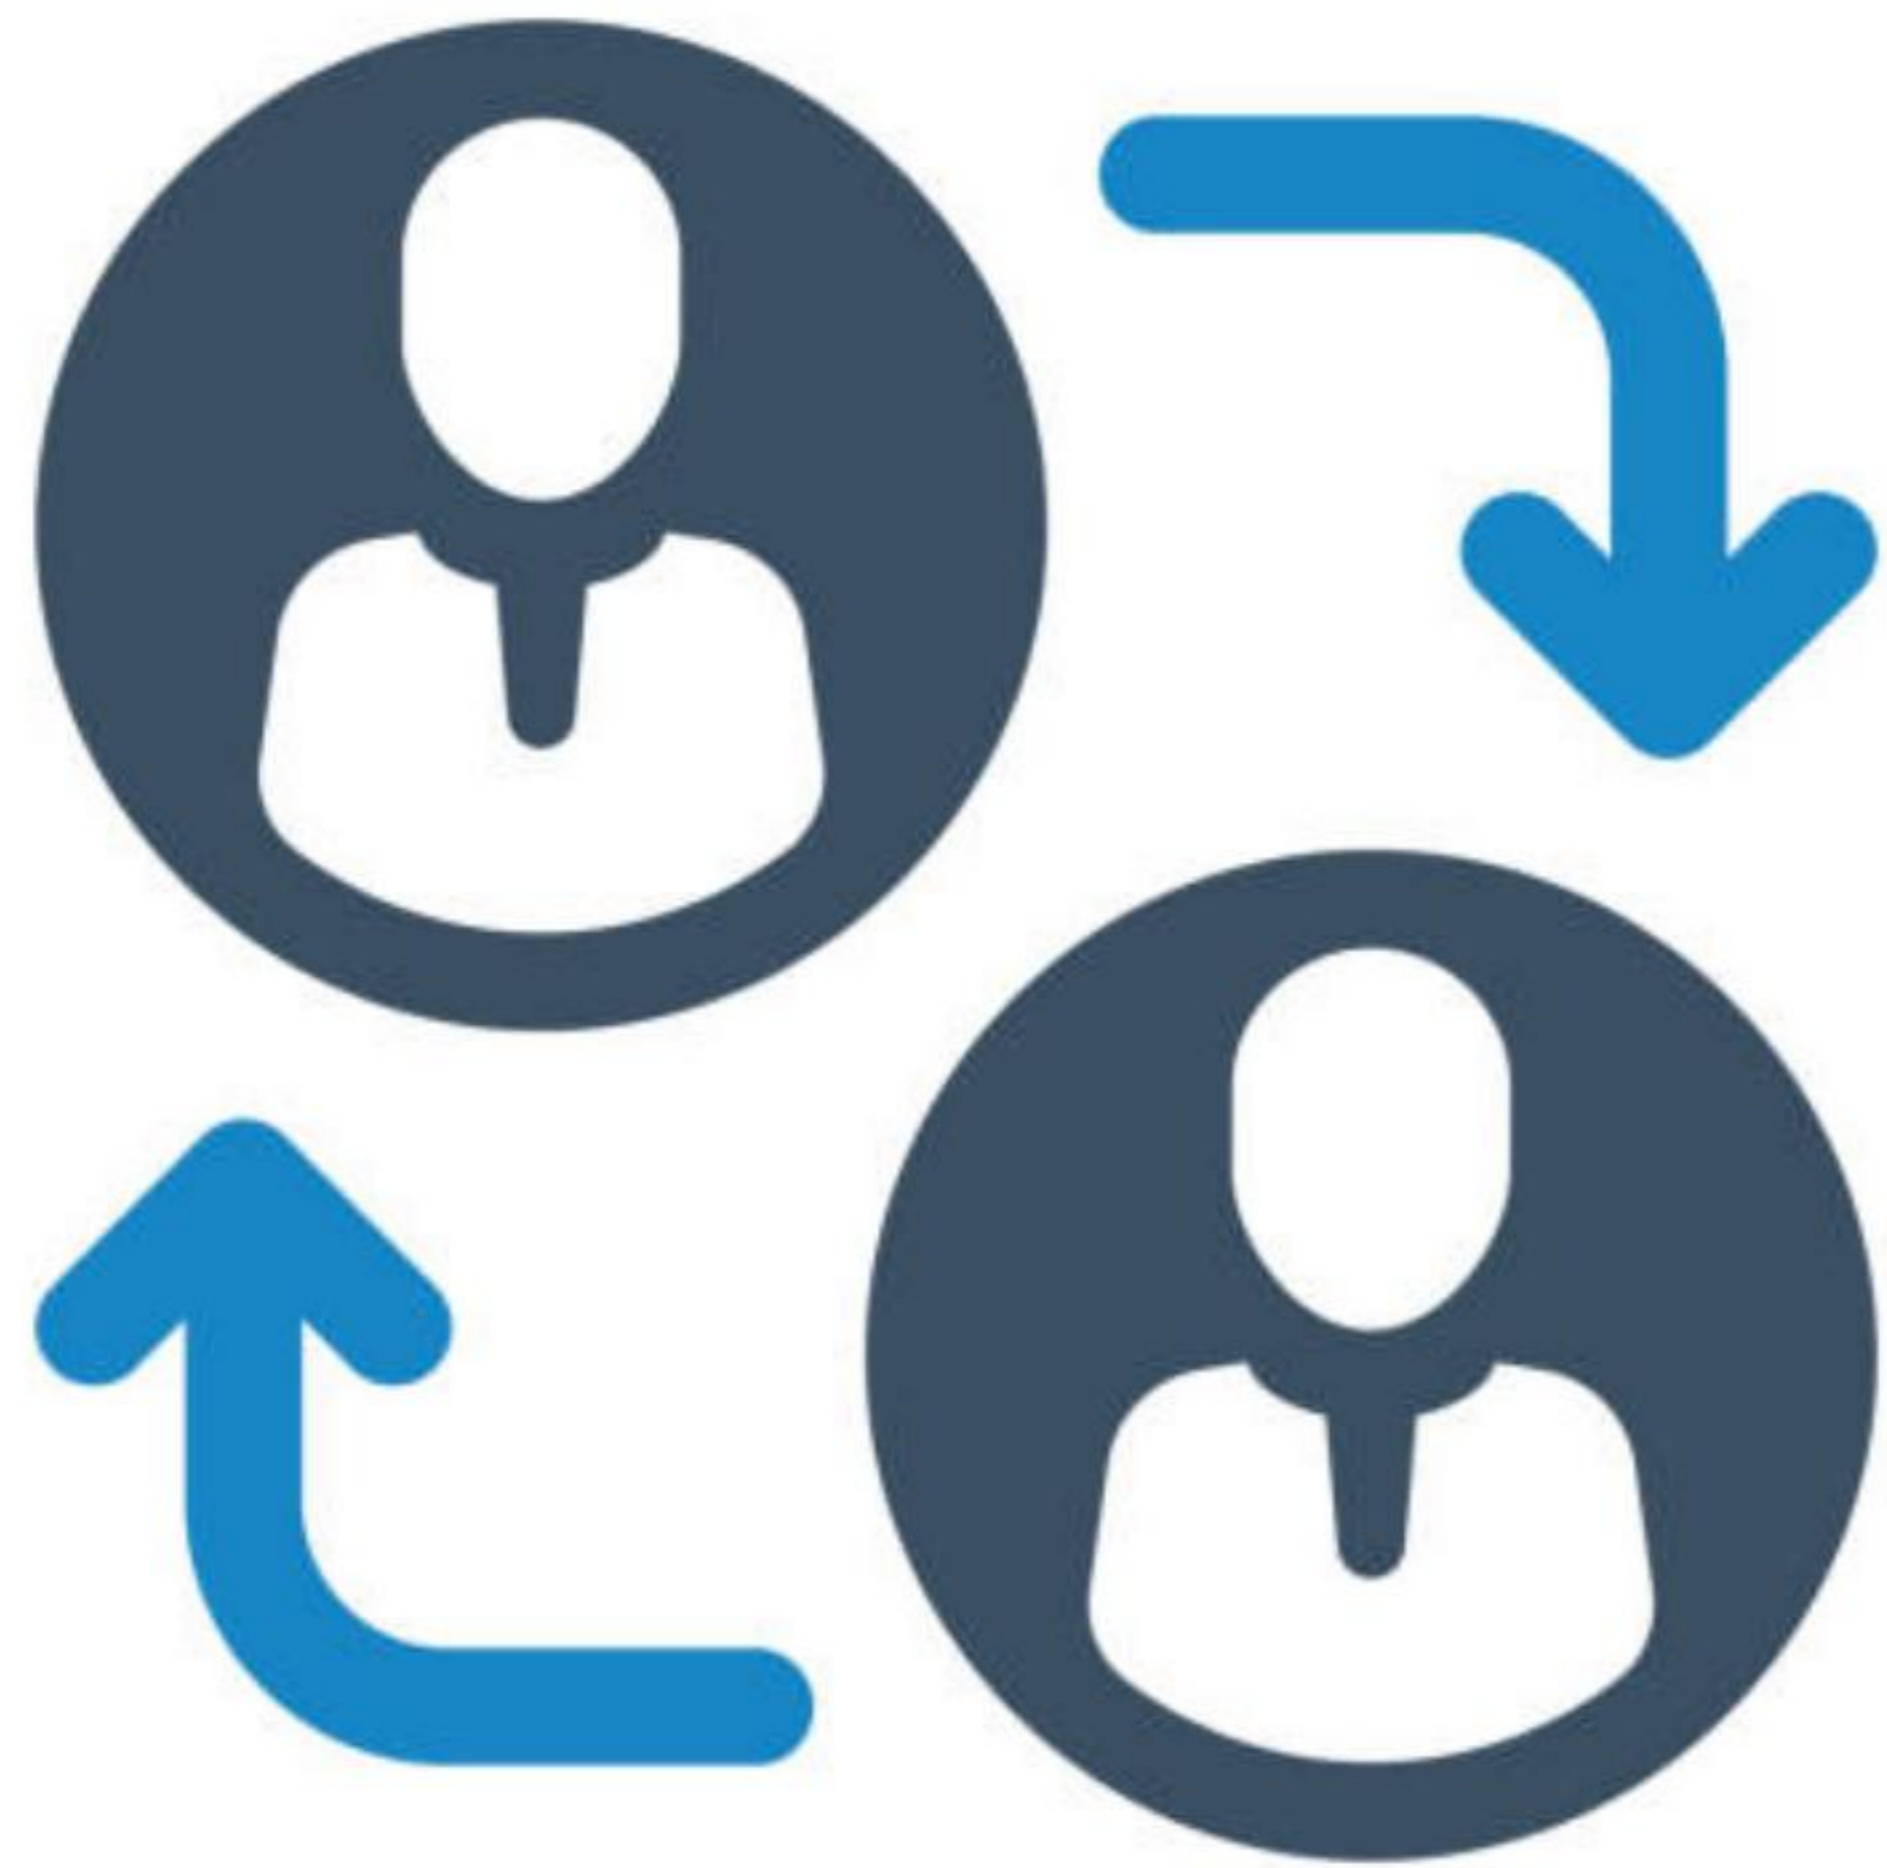

Most workplaces today are not fully "cloud-ready":

- ▶ **Mixed Windows versions** (incl. Windows 7 legacy systems)
- ▶ **Segmented networks** (LAN, Wi-Fi, VPN silos)
- ▶ **Limited / Unreliable Internet** connectivity
- ▶ **Strict IT policies** preventing cloud software installs
- ▶ **No central storage** for ad-hoc sharing

Modern cloud-first tools fail here.

The Solution: TreeTalk Node

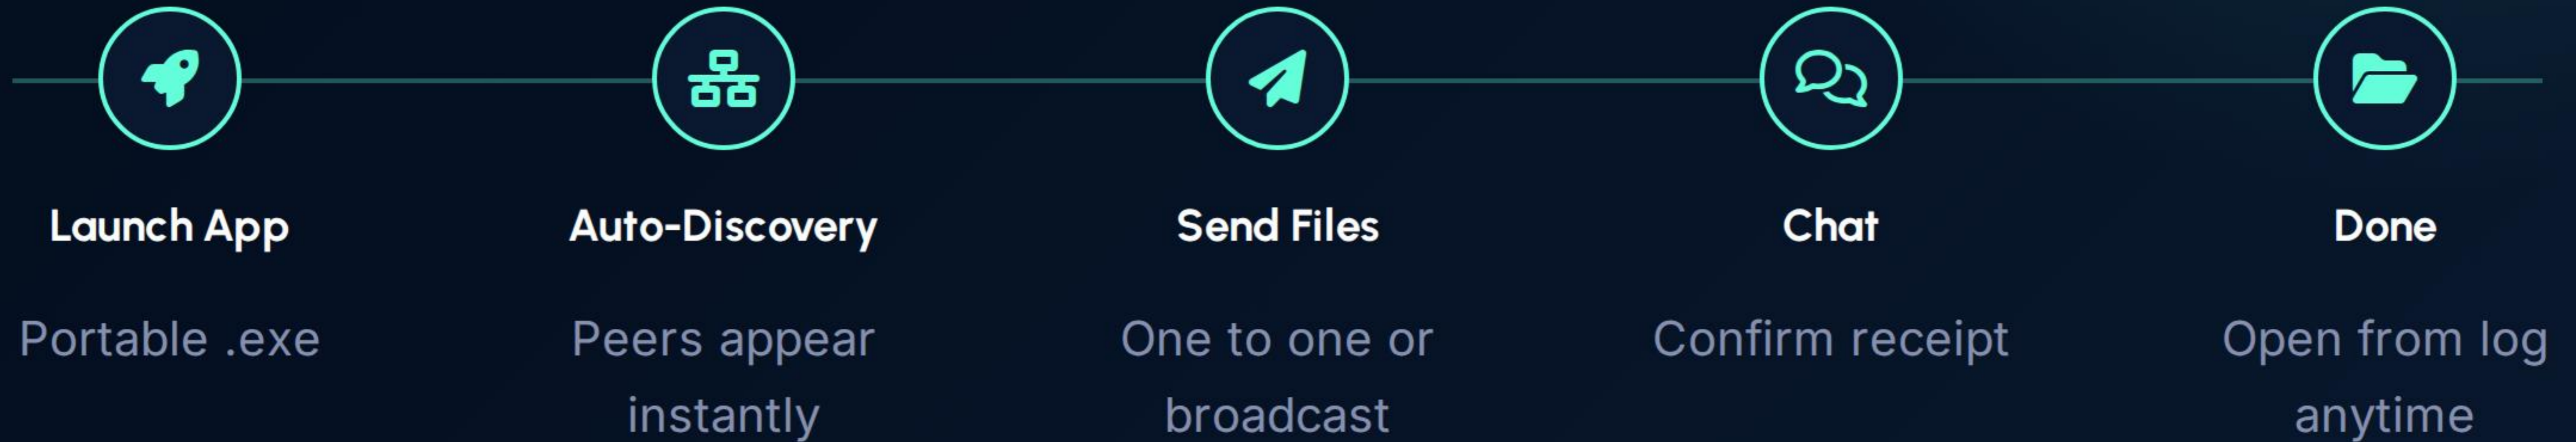

Offline-first file transfer + team messaging for LAN/Wi-Fi/VPN.

- ▶ Works fully locally
- ▶ Auto-discovers peers
- ▶ Direct PC-to-PC transfers
- ▶ Built-in Chat
- ▶ File Journal
- ▶ No installation needed

Optional End-to-End Encryption

How It Works

No servers • No accounts • No setup

Key Advantages

</> Technical

- **Offline-first:** Zero external dependencies.
- **Speed:** Maximizes LAN bandwidth (Gbps+).
- **Compatibility:** Supports Windows 7 through 11.
- **Discovery:** Zero-conf auto-detection.
- **Integrated:** Chat + Transfer logs in one UI.

Business

- **Zero Infrastructure Cost:** No servers to buy/rent.
- **No Install:** Runs from USB or share.
- **Clear Licensing:** Simple per-seat or site model.
- **Privacy Story:** Data never leaves the building.
- **Easy Rollout:** Deploy in minutes, not days.

Competitive Landscape

When you only need to move files inside your office, cloud is overkill.

Feature	Cloud (Dropbox/Teams)	SMB Shares	Legacy LAN Chat	TreeTalk Node
Offline Capable	✗ No	✓ Yes	✓ Yes	✓ Yes
Zero Setup	✗ Account Req.	✗ IT Config Req.	✓ Yes	✓ Yes
Easy Hand-off	✓ Yes	✗ Clunky	✗ Text only	✓ Seamless
Works on Old PCs	✗ Heavy	✓ Yes	✓ Yes	✓ Yes
Privacy	✗ External	✓ Local	✓ Local	✓ High

Target Segments

SMB Offices

5–100 PC offices with segmented networks.

Industry

Warehouses, Logistics & Manufacturing floors.

Education

Classrooms, Labs & Testing centers.

Prosumer

Multi-PC households & Home Labs.

Use Cases

Office Handoff

Fast "send this file now"
instant transfers between
colleagues.

Industrial

Coordinating logistics on the
shop floor without internet.

Education

Broadcasting assignment files
to an entire class instantly.

Field Deployment

Ad-hoc networks at events or
temporary sites.

Business Model

Freemium

\$0 / user

- ▶ ✓ Unlimited peers
- ▶ ✓ Local transfer
- ▶ ✓ Distribution allowed

MOST POPULAR

Premium

License Fee

- ▶ ✓ Hardware-bound license
- ▶ ✓ Strong Encryption
- ▶ ✓ Roles / Restrictions
- ▶ ✓ Delayed transfer hub

Enterprise

Custom

- ▶ ✓ SLA Support
- ▶ ✓ DPA Agreements
- ▶ ✓ Privacy Addendum
- ▶ ✓ Priority features

Why We Win

We fit real-world infrastructure:

- **Works offline** - No internet dependency.
- **Zero friction** - Download and run.
- **Legacy Support** - Works on older hardware.
- **Privacy** - Strongest data sovereignty story.
- **Immediate Value** - Solves pain point instantly.

Try TreeTalk Node

Join the revolution in local file transfer.
